

La Marche's DC System Controller (DCSC) is an intelligent module that monitors and manages La Marche DC power systems. The controller provides the system with Battery Management, ...

An antler scoring system for enabling efficient and accurate measurement of antlers. The antler scoring system includes a housing, a wheel member rotatably attached to the housing, a ...

Compatible Systems Features & Benefits Cross-compatible design accommodates: FERNO POWER X1, Stryker Power-PRO XT, and Stryker Performance-PRO XT Designed for ...

This 100% fanless Direct Liquid Cooling architecture yields 90% 3 reduction in cooling power consumption and costs as compared to traditional air ...

Hydrogen cooling is applied in larger alternators, typically those with a capacity ranging from 200 to 1000 MVA. Comparatively, the operation, installation, and maintenance of air-cooled ...

Outdoor power system based on the OPS series of cabinets and configured with an efficient cooling solution based on project conditions Modular systems for flexible capacity expansions ...

Comprehensive, configurable DC power systems for mission-critical applications. Available with DC power and batteries in a single cabinet or ...

Making the right decision on what thermal management type for your facility or data center depends on multiple factors including power density, room size, budget, and more. Alpine has ...

Liquid cooling is one of the common solutions for power inverter cooling, but designing such a system is far from straightforward. ? The thermal design process traditionally ...

DC on the following topics: Control, Distribution, System Grounding, Corrosion, Protection, power electronics and High Current systems. He is the inventor of Current/OS protocol based on ...

DESCRIPTIONClaudius Klose - senior product manager of electromechanics components, Zolt&#225;n Kiss - export manager - Endrich Bauelemente Vertriebs GmbH. Design of ...

We are experts in designing, simulating, manufacturing and testing cooling solutions to serve AC and DC power electronics applications where Wide Band Gap (SiC, GaN) and Silicon (IGBT, ...

A data center-optimized, row-based DC power protection system is now available to help data center operators

take advantage of that opportunity. This system, combined with the ...

The DC2500W enclosure ac is engineered for energy storage enclosure cooling and DC power system cabinets. Its closed-loop enclosure cooling design provides stable thermal control for ...

Lightweight and maintenance-free, Vertiv(TM) NetSure(TM) IPE outdoor power systems are designed to power your 5G network in the harshest environments and are available with dedicated ...

An effective motor cooling system can simplify the cooling of the battery pack and power electronics, effectively supporting the heating ventilation and air conditioning (HVAC) ...
