?????????????? ...

Augwind is an Israeli technology company founded in 2012 by Or Yogev, PHD, with the mission to develop an alternative solution to energy storage. In 2019, the company had completed a merging process with the public company "Biomedico Hadarim" (currently named Augwind Energy), which trades on the Tel Aviv Stock Exchange.

????????,?????????Augwind Energy????????"Air Battery"?????,????????????????,????????????????????????????????

Augwind's AirBattery system has an energy efficiency that is generally similar to the efficiency of pumped storage stations. Compared to a storage system based on lithium batteries, despite their higher initial

The AirBattery combines the strengths of Compressed Air Energy Storage (CAES) with those of Pumped Hydro Energy Storage (PHES) to offer grid-scale, multi-day energy storage. It utilizes cost effective geological compressed air storage, along with efficient hydroelectric turbomachinery.

Founded in 2012, Augwind is an energy technology company aiming to decarbonise electrical grids through its innovative AirBattery technology. Specialising in air compression, storage and controlled expansion, the company has developed a novel grid-scale energy storage technology that can discharge at full capacity for weeks at a time.

Augwind Energy Tech Storage Ltd (AUGN:TLV) company profile with history, revenue, mergers & acquisitions, peer analysis, institutional shareholders and more.
