

Flow Batteries Europe (FBE)-- launched by research centres, industry, and an association-- is an international not-for-profit group with a clear goal of increasing the number of flow batteries deployed to help governments decarbonise their power supplies.

Flow Batteries Europe is an association bringing together stakeholders across the entire flow battery value chain. Our vision is to accelerate the decarbonisation in Europe and globally by increasing the deployment of energy storage and flexibility ...

Flow Batteries Europe (FBE) represents flow battery stakeholders with a united voice to shape a long-term strategy for the flow battery sector. We aim to provide help to shape the legal framework for flow batteries at the EU level, contribute to the EU decision-making process as well as help to define R& D priorities.

Flow Batteries Europe represents flow battery stakeholders with a united voice to shape a long-term strategy for the flow battery sector. We aim to provide help to shape the legal framework for flow batteries at the EU level, contribute to the EU decision-making process as well as help to define R& D priorities.

Flow Batteries Europe (FBE) represents flow battery stakeholders with a united voice to shape a long-term strategy for the flow battery sector. We help shape the legal framework for flow batteries at the EU level, contribute to the EU decision-making process, as ...

The International Flow Battery Forum (IFBF) is the leading event for the flow battery community. The IFBF promotes the most recent developments in the science, technology and commercialisation of flow batteries. Our conferences cover various interests in flow batteries" research and commercial aspects.

The flow battery will be installed in the second half of 2025, and CMBlu said its customer is investing a "single-digit million Euro amount" into the project, which will help store "green electricity" from sources including onsite solar PV, for use over "many hours".

Discover the Flow Batteries Tour to learn about different flow battery projects being undertaken from Flow Batteries Europe members in Europe and beyond. The examples showcase how flow batteries are becoming readily available on the market and can really contribute to ...

On 28 April 2021, 16 flow battery stakeholders came together to confirm the formation of FBE, a new industry association. The main objectives of Flow Batteries Europe are: to promote the advantages of flow battery technologies and support the European supply chain;
