

An investor who builds a battery system, or "storage", will be allowed to participate in the market as storage operator and buy and sell electricity. Moreover, the draft Law on Energy introduces the concept of declaring certain projects as strategic, making them eligible for state aid.

The Germany-headquartered lithium battery systems firm has started work on a greenfield site in the Skopje 2 technological industrial development zone in Skopje for the group's fifth production plant. BMZ said the project will benefit from economic subsidies from the North Macedonian government, but did not disclose details.

In a significant development for the economic landscape of North Macedonia, ABEE has signed a groundbreaking agreement today for a new investment in the production of Battery Management Systems (BMS).

Belgium's battery systems producer Avesta Battery and Energy Engineering (ABEE) started the construction of a factory for the production of electric car battery systems in North Macedonia's Kicevo, Aleksandar Golaboski, executive director of ...

In an interview with Adam Cortese, CEO of UGT Renewables (UGTR), we discuss how the company and its partners can help ESM to develop and construct new solar power capacities and improve its power system flexibility with battery energy storage systems. The energy crisis in North Macedonia is reaching dramatic proportions.

With the production of home and industrial storage units for photovoltaic systems as well as batteries for electric mobility, BMZ manufactures the heart of the necessary infrastructure for the energy and transport turnaround.

According to the draft Law on Energy, operators of battery energy storage systems will enter the electricity market. North Macedonia published it in a package with the new Law on Renewable Energy Sources, ...

BMZ Group, headquartered in Karlstein am Main, develops and manufactures lithium-ion system solutions in the areas of home and industrial storage/green energy as well as e-mobility and drive systems, among others. As reported, BMZ sells its battery cells under the TerraE label. [bmz-group](#)

Our services for the certification of energy storage systems and components, such as batteries, management systems, inverters and interfaces, have been designed according to international standards to assist various project partners including:

Cetral Invest, the company of businessman Kocho Andzhushev, will be the first to bring large battery storage systems to North Macedonia for storing surplus electricity generated by renewable energy plants, BalkanEngineer has learned from Makfax .mk.

According to the draft Law on Energy, operators of battery energy storage systems will enter the electricity market. North Macedonia published it in a package with the new Law on Renewable Energy Sources, which is set to introduce statistical transfers with other countries as well as energy communities and guarantees of origin.
