## Belize vestas solar energy

Pro Solar Engineering is the only solar company in Belize to offer all 3 major renewable energy sources-solar, wind and hydro power, including hybrid.

Experience the power of the sun with our cutting-edge solar solutions in Belize. Our expert team is committed to providing affordable and reliable solar energy for your home or business. Say goodbye to high electricity bills and embrace a sustainable future.

Belize's solar energy usage is limited to off-grid use, primarily in remote areas by residential consumers, hotels, and resorts. However, the Belizean government is taking steps to encourage investment in utility solar-energy facilities to enhance its energy sustainability and become a net exporter of energy.

Belize also boasts a 480 kW solar farm located in the capital Belmopan at the University of Belize (UB) campus, courtesy of the Japanese government (JICA). This system has been producing approximately 590 MWh of electricity annually
