What Is The Standard Rack For A Server?What Is The Difference Between A Server Rack and A Network Rack?How Do I Choose A Server Rack?As servers lie at the heart of any business, they are usually housed in racks that offer a high level of protection. Typically, server racks include sides and a locking door to deter tampering. Because servers generate heat that can cause premature failure of electronic components, server racks need cooling such as a fan box, and the sides and shel...See more on budind
