

Cameroon original solar battery

Release by Scatec has signed two new lease agreements with Cameroon's national electricity company, ENEO, expanding its solar and battery storage power plants in the country to 64.4 MW of solar power and 38.2 GWh of battery capacity.

The plants have a combined capacity of 36MW solar and 20MW / 19MWh of storage and were delivered following the signing of a lease agreement with electricity company, ENEO, in 2021. They are equipped with more than 44,800 bifacial solar panels mounts on trackers to help maximise energy production.

Norwegian renewable power producer Scatec ASA today said its Release by Scatec business will expand its existing solar and battery storage power plants in Cameroon under two new lease agreements with national electricity company ENEO.

22 September 2023, Cameroon: Today, Release by Scatec celebrates the inauguration of the solar plants in Cameroon. Release entered into a lease agreement with ENEO, an electricity company, in 2021 to deliver two solar ...

Release completed the already existing solar plants in Maroua and Guider in Cameroon (35.8 MW solar and 19 MWh BESS) in September 2023, and is now adding 28.6 MW of solar and 19.2 MWh of battery storage.

Release by Scatec, a renewable energy solutions provider, has announced the expansion of its solar and battery storage power plants in Cameroon, increasing the total capacity to 64.4 MW of solar and 38.2 MWh of batteries.

Scatec, a leading renewable energy company, celebrated the inauguration of its solar hybrid and battery storage plants in Cameroon today. In 2021, Scatec entered into a lease agreement with ENEO, a prominent electricity provider, to deliver two cutting-edge solar facilities with a combined capacity of 36MW solar and 20MW/19MWh of storage.
