

6 ???· Old Crow Solar Project (Yukon) (\$3.1M) -One of the Northern-most solar projects in Canada, which is meeting 24% of the community's electricity needs while reducing its reliance on diesel by 180,000 litres annually and generating revenue for the remote Indigenous community of Vuntut Gwitchin First Nation.

Established for 6 years as a photovoltaic installer and manufacturer of solar trackers, we have created a branch specialized in the development and marketing of photovoltaic research and new electrical products.

Solar panels convert sunlight into electricity. They can provide direct current (DC) to power appliances or be converted to alternating current (AC) using an inverter. Polycrystalline solar panels have a bluish, textured appearance, while monocrystalline panels are uniformly black.

Canada generated around 4,323 gigawatt-hours of energy from solar power in 2022, which provided enough electricity to power over 470,000 typical Canadian homes. For solar thermal energy, Canada's use has increased in recent years, although it remains relatively small in terms of market penetration.

We offer a wide range of high-quality products, such as solar panels, inverters, storage batteries and solar kits, tailored to the needs of individuals, businesses and local authorities. Our mission is to make renewable energy accessible to everyone by providing turnkey solutions, from design to installation and maintenance.

6 ???· December 17, 2024 - Ottawa, Ontario. In the 21st century, building out clean, reliable, and affordable electricity is the best way to bring a growing economy the low-cost power it needs to compete. Today, 85% of Canada's electricity is generated from clean sources like hydropower, wind, solar, and nuclear--and it's a big part of the reason why companies around the world ...

Flexible solar panels Traditional solar panels Pallet of panels. Solar Kits . Self-consumption kits with batteries 12V kits with batteries Motorhome / boating kits Autonomous lighting kits Self-consumption kits Anti-cut kit Hybrid inverter and battery packs Solar kits installed in Belgium Solar kits installed in France.

Solar panels convert sunlight into electricity. They can provide direct current (DC) to power appliances or be converted to alternating current (AC) using an inverter. Polycrystalline solar panels have a bluish, textured appearance, while ...
