The DBIS is Guyana's main power grid that uses diesel, an environmentally- harmful fossil fuel, to produce power. It supplies about 78 percent of the country's energy needs. Through the use of US\$83.3 million ...

The DBIS is Guyana's main power grid that uses diesel, an environmentally- harmful fossil fuel, to produce power. It supplies about 78 percent of the country's energy needs. Through the use of US\$83.3 million accumulated from Norway to keep Guyana's rainforests intact, the new solar farms promise to add much-needed solar power, an ...

Guyana's solar capacity is set to receive a significant boost with the signing of a US\$38 million contract between the Guyana Utility-Scale Solar Photovoltaic (GUYSOL) and a Chinese company...

In Guyana, solar energy is used for several purposes, including drying agricultural produce, irrigation, ICT, and to improve electricity access in rural areas. Under the Hinterland Electrification Programme, in excess of 19,000 solar PV systems had been installed in ...

The GUYSOL programme, a collaboration between GPL and SUMEC Group, aims to implement utility-scale photovoltaic projects to enhance Guyana's energy sustainability. Under this initiative, 80-megawatt solar PV farms and battery storage systems will be installed in Regions 2, 5, and 6.

GEA welcomes the 2024 budget approval which includes allocations for the construction of a 0.6 MW solar farm for Leguan, completion of the 0.65 MW solar farm at Mahdia, five (5) new solar PV mini-grids at Awarewaunau, Katoka, Maruranau, Yupukari and Nappi in Region Nine, and funds for the supply and installation of off-grid solar PV systems at ...

Prime Minister Mark Phillips, along with regional officials and representatives from the Guyana Utility Scale Solar Photovoltaic Programme (GUYSOL), today turned the sod for the construction of a new solar farm in Onderneeming on the Essequibo Coast.

The government of Guyana and the Inter - American Development Bank (IDB) have jointly launched a tender to deploy 33 MW/34 MWh of solar-plus-storage capacity. The Guyanese authorities said the...

Solar Direct offers the most flexible off-grid and hybrid Solar PV systems on the Guyana market to meet the budget and needs of our clients. No job is too small or too big for us as we cater for both residential and commercial applications.

The project falls under the Guyana Utility-Scale Photovoltaic Programme (GUYSOL), which is being implemented by the Guyana Power and Light (GPL) to diversify its energy source with solar farms. The newly
