

In a ground breaking initiative, Aptech Africa has embarked on a mission to bring sustainable energy solutions to remote communities in Equatorial Guinea. Through the installation of 11 solar systems, Aptech Africa is lighting ...

In a groundbreaking initiative, Aptech Africa is leading a mission to bring sustainable energy solutions to the isolated communities of Equatorial Guinea. By deploying 11 advanced solar systems, Aptech Africa is not only illuminating lives but also fostering development and paving the way for a brighter future.

OSLO, Norway - Panoro Energy has issued updates on its current E& P activities offshore West Africa. In Equatorial Guinea Block G (Panoro 14.25%), the partners have contracted a rig for a drilling campaign starting late this year and comprising three infill production wells, all of which should go onstream in 2024. Other ongoing activities ...

Aptech Africa implemented solar systems in 11 distinct villages, featuring capacities of 5kWp, 15kWp, and 20kWp, coupled with battery energy storage ranging from ...

In a groundbreaking initiative, Aptech Africa has embarked on a mission to bring sustainable energy solutions to remote communities in Equatorial Guinea. Through the installation of 11 solar systems, Aptech Africa is lighting up lives, fostering development, and paving the way for a brighter future.

The government of Equatorial Guinea has selected MAECI Solar, a division of Management and Economic Consulting, Inc., in collaboration with GE Power & Water and ...

In a groundbreaking initiative, Aptech Africa has embarked on a mission to bring sustainable energy solutions to remote communities in Equatorial Guinea. Through the ...

The microgrid will provide electricity for the island's 5,000 residents using GE's battery-based energy storage system, which is designed to withstand the high temperatures on the island. The project is being led by MAECI Solar, which is providing the solar modules and system integration.

Despite logistics challenges, Aptech Africa has installed 11 solar systems in Equatorial Guinea featuring capacities of 5kWp, 15kWp, and 20kWp, coupled with battery energy storage ranging from 12kWh to 36kWh.

The microgrid will provide electricity for the island's 5,000 residents using GE's battery-based energy storage system, which is designed to withstand the high temperatures ...

Energy storage modules Equatorial Guinea

The solar microgrid will feature 5-MW solar modules and system integration by MAECI, an energy management system and controls from Princeton Power Systems and ...

Despite logistics challenges, Aptech Africa has installed 11 solar systems in Equatorial Guinea featuring capacities of 5kWp, 15kWp, and 20kWp, coupled with battery ...

OSLO, Norway - Panoro Energy has issued updates on its current E& P activities offshore West Africa. In Equatorial Guinea Block G (Panoro 14.25%), the partners have contracted a rig for a ...

The government of Equatorial Guinea has selected MAECI Solar, a division of Management and Economic Consulting, Inc., in collaboration with GE Power & Water and Princeton Power Systems, Inc., to install a 5MW solar microgrid system on Annobon Province, an island off Equatorial Guinea in west central Africa.

In a ground breaking initiative, Aptech Africa has embarked on a mission to bring sustainable energy solutions to remote communities in Equatorial Guinea. Through the installation of 11 solar systems, Aptech Africa is lighting up lives, fostering development, and paving the way for a brighter future.

In a groundbreaking initiative, Aptech Africa is leading a mission to bring sustainable energy solutions to the isolated communities of Equatorial Guinea. By deploying ...
