

Gibraltar company profile solar energy

Renewable energy and infrastructure markets investor Gibraltar Industries (NASDAQ:ROCK) has acquired solar racking technology specialist TerraSmart and solar software solutions provider Sunfig. The move is in line with Gibraltar's aspirations for expanding its solar energy portfolio, the company said on Monday.

Scale Gibraltar to a \$700 million solar energy platform within its Renewable Energy and Conservation segment over the next five years, enhancing Gibraltar's revenue growth and margin profile and demonstrating the company's commitment to increasing its participation in higher value and faster growing markets.

With the recent acquisitions of TerraSmart and Sunfig, Gibraltar has accelerated their contribution toward making solar energy readily available everywhere. This includes being the largest turnkey provider of ground-mount infrastructure, tracker and design software solutions in North America.

Renewable energy is a market Gibraltar is focused on investing in and contributing toward. In the solar energy market...

solar energy readily available everywhere In line with Gibraltar's vision of bringing environmentally responsible and cost-effective solar energy production to the market 4. Enhances revenue growth and margin profile by driving leadership in a fast growing and profitable market

Gibraltar Industries, Inc. (Nasdaq: ROCK), a leading manufacturer and provider of products and services for the renewable energy, residential, agtech and infrastructure markets. [View Analysis & Filings](#)

RBI Solar, SolarBOS, Sunfig and Terrasmart, all part of the renewable energy group of Gibraltar, are unifying under a shared brand: Terrasmart. With a combined installed capacity of 19 GWs across 4,600 projects, now officially working as a single entity with a snazzy new logo, this new mega Terrasmart arguably represents the most complete ...

The demand for renewable forms of energy, such as solar, has never been greater. Our technology enables customers and utilities to harness energy efficiently-- wherever they choose to build. We are expanding the possibilities ...

The demand for renewable forms of energy, such as solar, has never been greater. Our technology enables customers and utilities to harness energy efficiently-- wherever they choose to build. We are expanding the possibilities of what solar can be and helping contribute to a more responsible and energy-independent future.
