

Greece global solar solutions

GES is providing the most ideal solutions for the Engineering, Procurement, Installation, Operation and Maintenance of Solar Photovoltaic systems, as well for the development of residential and Industrial Solar Photovoltaic self-consumption systems (Net Metering) for fulfilling one's energy requirements and lighting requirements.

2008-2012 development, construction and commissioning of photovoltaic projects throughout Greece. 2012 - Implementation of the first photovoltaic project outside Greece (North Macedonia) and investigation for construction of photovoltaic solar projects in Sub-Saharan Africa. 2013 - Establishment of affiliated GES company in Turkey

In the context of green energy transition of businesses in Greece, we offer a full range of specialized solutions, including the development of Blink's EV charging network, the financing and installation of Greenvolt Next's self-generation and self-consumption photovoltaic systems, as well as the development of IoT Smart Metering solutions.

This report lists the top Greece Solar Energy companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and identified these brands to be the leaders in the Greece ...

Company profile for installer Global-Energy Solutions Ltd. - showing the company's contact details and types of installation undertaken.

This report lists the top Greece Solar Energy companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and identified these brands to be the leaders in the Greece Solar Energy industry.

It's exciting to see how solar energy in Greece is highly developed, aligning with the advanced EU regulations and technical implementations found across the European Union's solar production...

GLOBAL - ENERGY Solutions Ltd, one of the leading companies, has connected to the grid the second Solar project in 2007, after the enactment of Law 3468/2006 on Renewable Energy Sources in Greece. Has Built and commissioned Solar photovoltaic parks on the ground and on roofs, in industries and homes.

Harness the power of the sun with our highly specialized solar solutions, designed to provide clean, renewable energy and significant savings. Embrace sustainability and independence from rising energy costs. Illuminate your future with solar today!

Greece global solar solutions

The company has engineered - procured - constructed many projects in Greece and abroad, having extensive experience in the engineering, procurement, construction, operation, and maintenance of interconnected photovoltaic projects, both on the ground with fixed and sun-tracking mounting structures, and on various types of roofs.
