

Green eagle solutions Tunisia

Who is green eagle solutions?

Green Eagle Solutions is an international and rapidly growing tech company that offers SaaS solutions to the renewable energy sector. We have developed ARSOS, a Robotic Process Automation (RPA) based software that autonomously operates and apply one-to-one care to hundreds of assets simultaneously.

Can Green Eagle solutions become a reference for automated wind farms?

Green Eagle Solutions has set a course to become the reference for automated wind farms operations in the French renewable energy market. Alejandro Cabrera, Green Eagle Solutions' CEO, and Antonio González, Control Room Leader at RWE Iberia, presented ARSOS for Intelligent Control at the last event of the Spanish Wind Energy Association (AEE).

Why should you choose green eagle solutions?

Green Eagle Solutions' technology allows green energy production to be more efficient and therefore sustainable, bringing the common goal of achieving a carbon-neutral world closer. Despite the unexpected and tough year that the world has gone through, 2020 has opened new opportunities for the entire renewable energy sector.

Green Eagle Solutions is an international and rapidly growing tech company that offers SaaS solutions to the renewable energy sector. We have developed ARSOS, a Robotic Process Automation (RPA) based software that ...

Green Eagle Solutions provides SCADA Solutions for wind farms and solar plants. They believe the SCADA is the most important part of any renewable energy facility. Without SCADAs to manage the energy that is produced and distributed, the world would not work as it does today.

With goals of consolidating its presence at the European level and increasing its existing portfolio of international clients, technology company Green Eagle Solutions, with the support of ICEX, is reinforcing its stakes in the European market, aiming to become a reference in the software solutions field for the renewables industry.
