5 ???· To ensure the stability and safety of the system, it is necessary to combine gas power with renewable energy sources. Vietnam's National Power Development Plan VIII (PDP8) outlines a roadmap that clearly prioritizes the development of gas-fired power, while also moving towards renewable energy.

Currently, GTECH is surveying, designing and installing a number of solar power systems for office buildings, hotels, and supermarkets in Ho Chi Minh City. In particular, renewable energy investment funds choose GTECH as their investment partner to bring cleaner, better energy sources to society at lower prices than traditional electricity prices.
