

Guam solar generator

Why choose generation renewable - Guam?

I am extremely pleased with my solar system from Generation Renewable - Guam. I was paying more than \$400.00 for power to GPA before getting a solar system from Generation Renewable - Guam... I was never really able to save money on power until I got a solar energy system from Generation Renewable - Guam...

Does Guam have plans for a solar farm?

Guam has announced plans for several large solar farms. The island has adopted a renewables policy that requires the reduction of fossil fuel consumption by 2020 to 20% less than the rate in 2010. Another requirement is for 5% of electricity in 2015 to be from renewables, increasing to 25% by 2035. A net metering program began in 2009.

What is a gosolar inverter?

They are encased in ultra-high temp tempered glass capable of sustaining high wind loads (175 mph) and performing efficiently even in low light conditions and are backed by a 25-year warranty for minimum power output. GoSolar uses high efficiency low cost \$/watt micro-inverters by NEP(TM).

We design and build high-efficiency, cost effective solar panel systems. Lower your carbon foot print, increase the value of your home or business, and SAVE MONEY! Guam and Micronesia's source for residential and commercial green energy solutions.

SOLAR GENERATORS. We are a retail and wholesale small business company dedicated to provide the people of Guam quality and affordable solar products. We partner with our sister company, BMA Services, for all installs of Solar Generator Packets and lights. Our packages can be customizable to your power consumption and budget.

Our panels capture the sun's energy, channel it through discreetly placed wires to an inverter, where it's converted to electricity to power your home. When your solar power system produces more power than you need, It feeds the power back into the electricity grid.
