

It's our team that needs to replace a grid originally designed to supply the demand of 20th-century Guernsey with an infrastructure that can power our busy modern lives. But we do understand how frustrating roadworks can be.

The energy landscape is changing at an unprecedented pace as countries of all sizes seek sustainable ways to fuel their futures. In smaller communities, the need to find renewable, reliable energy solutions is even more pronounced as they cannot leverage the economies of scale available to larger regions.

The company is the sole licenced distributor of electricity to Guernsey with over 94% of the island's energy being supplied through the subsea cables while at the same maintaining sufficient on-island generation capacity.

Guernsey Electricity's long-term strategy is for an energy system that supports renewables and reduces the reliance on fossil fuels to use the power station for emergency generation only. See for yourself the challenging road ahead.

We've been providing energy solutions to the Channel Islands for almost 200 years. Do you want to learn how you can save on your energy costs with Guernsey Energy? visit our website and view & buy our products or services.

This webpage sets out the States of Guernsey's Energy Policy and its objectives. Access to energy is a critical requirement which enables us to undertake daily activities such as using the internet, cooking, working, and staying warm.

Guernsey Energy Resource Plan 1. Executive Summary 1.1. This Energy Resource Plan describes Guernsey's sources and use of energy and sets out key objectives which will affect future energy decisions. This Plan is supported by key principles and strategic actions which are both pragmatic and achievable. This Energy Resource Plan in turn is ...
