Infratil Ltd is managed by Morrison, a global infrastructure investment company.

What does Gurin energy do?

At Gurin Energy, we develop solar, wind and energy storage projects to support Asia's sustainable development journey. Jindo Green Solar, located in the south of the country, will become one of South Korea's largest solar power plants.

Does Gurin energy offer equal opportunities?

Gurin Energy is committed to a diverse, equitable and inclusive workplace, and we provide equal opportunities for employment.

Why should you choose Gurin energy?

Asia is blessed with excellent solar radiation, a largely underutilised source of clean, carbon free energy. Gurin Energy works closely with local communities to ensure that projects are developed in harmony with their surroundings.

Why is Gurin energy developing a battery energy storage system?

Gurin Energy is developing a pipeline of utility-scale battery energy storage system (BESS) projects to enable greater flexibility of the grid and support the increased use of renewable energy in Japan. The Capas Solar Power Project is a 38MW solar power plant located in Barangay Santa Lucia, Capas, Tarlac Province.

Capas Solar Power Project. The Capas Solar Power Project is a 38MW solar power plant located in Barangay Santa Lucia, Capas, Tarlac Province. The project will be built on 40 hectares of former military land that is being leased under a 25-year agreement with the Bases Conversion Development Authority (BCDA).
