

By John Lee. Iraq's Ministry of Electricity and the French company TotalEnergies have signed two contracts to produce 1,000 megawatts of solar power. The development will be built in four, 250-MW phases at the Ratawi [Artawi] field in Basra. According to state-run Iraqi News Agency (INA), it will be completed within two years. (Sources: INA; [...])

By John Lee. The Iraqi Council of Ministers has authorised the Ministry of Electricity to extend an invitation (the 'sole offer') to the Emirati company AMEA Power to present its proposal to build a 500-MW solar power plant, with the option to add batteries. This move allows the Ministry of Electricity to proceed with the necessary

Iraq aims to deploy around 12 GW of solar capacity by the end of 2030, an adviser at the National Investment Commission said on Tuesday. Solar power plant. Source: ...

These solar projects will help Iraq to achieve its target for producing 12,000 MW by 2030 of renewable energy. Iraq wants to achieve energy security, reduce power production costs, and cut electricity imports.

Iraq has initiated several solar and renewable energy projects in 2023 and 2024, one of the upcoming solar projects which Iraq is moving to finalize is a contract with Saudi Arabia's ACWA Power to build a 1,000-megawatt (MW) solar power plant. The Iraqi News Agency reported that Iraq's Electricity Minister, Ziad Fadil, met with ACWA Power ...
