

We're fighting climate change by transforming the global energy system - with offshore wind power, solar energy, and other innovative renewable energy solutions. For over a decade we've worked together with our partners, our suppliers, our people, our communities, and governments to become a global leader in offshore wind.

Best Energy Solutions Limited recently became a partner of Energy & Sustainability Centre Isle of Man (ESC). In this Q& A, ESC talks to Steve Pickett about the background to the company's support for the Island's leading charity supporting a transition to a low-carbon economy.

The energy sector is changing. We're having to re-evaluate our fundamental offering and consider how we contribute to a future that is greener, cleaner and better. Living in island communities amplifies this responsibility, as we can plainly see and imagine the impact that climate change is having on our coastlines, valleys, towns and wildlife.

We're working with the Isle of Man to support its ambitious renewable energy and net-zero emission targets - and achieve all the social, economic, and environmental benefits that can come with that.

Our mission is to help the Isle of Man reach its net zero targets through energy efficiency and green technology by providing systems and services that will ensure a sustainable future for our Island whilst saving money for our customers.

help solve the energy transition challenges. Over the coming years we shall be trialing various low-carbon technologies and hybrid projects; with the electricity and gas networks working together to play a central role in enabling and facilitating decentralised renewable energy generation - and offering new and innovative

We are a passionate provider of cost-effective energy reviewing, monitoring and technology services. We are all about showing you how to minimize your energy problems by maximizing the use of energy reduction technologies and power of Big Data, AI and IoT.
