Who is KMW energy?

WELCOME TO KMW. Welcome to KMW Energy. KMW Energy Group. is a leading manufacturer of biomass combustion systems boilers and heaters with over 70 years experience. KMW's proprietary reciprocating grate combustion system is the industries most proven, reliable, cost effective solution to converting biomass and waste derived fuel into energy.

Who is KMW?

Founded in 1947 and operating as an independent Canadian company since 1987 KMW has unrivaled experience and history in the biomass boiler industry. With 70 years of experience engineering, manufacturing and supplying biomass combustion systems and boilers, KMW can take any project from concept to completion.

Why choose KMW for biomass systems?

KMW is dedicated to establishing life long relationships with customers and their communities by providing systems with a service life in excess of 25 years. We are committed to the use, growth, sustainability, and responsible use of biomass energy.

Is KMW a good company?

From consulting, to system design and supply, to development, KMW has over 35 years as the world leader in biomass. This company also provides solutions for other industrial applications. Founded in 1947 and operating as an independent Canadian company since 1987 KMW has unrivaled experience and history in the biomass boiler industry.

What can KMW Energy do for you?

With 70 years of experience engineering, manufacturing, and supplying biomass combustion systems and boilers, KMW can take any project from concept to completion. KMW has a proven track record, with boilers operating in North, Central, and South America, as well as Europe and Australia.

What is a KMW modular boiler?

The KMW modular design includes shop built combustor and package boilers, greatly reducing the cost and complexity of your boiler project. KMW has extensive experience supplying boiler systems to sawmills, hospitals, schools, pulp and paper mills, power utility plants, cogeneration facilities, district heating systems and greenhouses.

The KMW system, when operating in the biochar production mode as a high temperature gasifier can produce biochar from any biomass feedstock. Benefits of the KMW Biochar Systems: Self sustaining production of biochar and heat; Continuous 24/7 production of certifiable biochar; No pre-drying required; High carbon content >85% C
