Lfp storage North Macedonia

The regulatory framework governing storage facilities in North Macedonia is defined by a combination of national legislation and European Union (EU) standards. These regulations are essential for entities intending to establish and operate warehouses, ensuring safety and efficiency in the warehousing and logistics sector.

The Storage Units market in North Macedonia is projected to generate a revenue of US$6.2m in 2024. It is anticipated to experience an annual growth rate of 1.23% (CAGR 2024-2029).

The storage capacity in all Nelt Group markets is 164,000 m2 in different temperature regimes, storage types and technologies. In the coming years, investments in new logistics infrastructure and capacity expansion in the markets of Serbia, Bosnia and Herzegovina, Macedonia, Montenegro and Zambia are planned.
