

Stationary energy storage for residential buildings; Stationary energy storage for commercial and industrial applications; Energy management, monitoring, controlling and load management

M-TEC Energy Systems specializes in designing and delivering holistic energy solutions encompassing heating, photovoltaics, battery storage, and e-mobility. Their innovative and scalable solutions cater to a diverse range of settings, from single-family homes to commercial buildings and multi-storey residential complexes.

Our mission is the independence of people in the energy supply of their own home, through heat pumps, photovoltaics, storage and e-mobility, controlled by our innovative energy ...

M-TEC presenterà l'ultima generazione delle sue soluzioni energetiche sostenibili a Klimahouse 2025 (stand C21/62) a Bolzano. Qui potrete sperimentare tecnologie all'avanguardia come semplici soluzioni plug & play per la vostra casa o azienda - sviluppate in Austria!

Products and Solutions for a Successful Energy Transition. M-TEC International, headquartered in Austria, is a leading Green-Tech company focused on developing and producing complete energy solutions. As experts in intelligent control technology and sustainable energy management, we create integrated, cross-system solutions in the following areas:

Energy consumption and energy production are visible via a simple and clear visualization. In addition to the distribution of energy, the savings are also shown daily, monthly and yearly. E-Smart makes all energy flows from the power grid through photovoltaics, battery storage, e-mobility to heat pumps and electric heating elements visible.
