Who is Entec international?

Entec International provide a third-party maintenance repair and operations(3PMRO) solution,for industrial MRO and Indirect spend,improving the cost and availability of industrial spares and consumables from demand to point of use.

Why should you choose Entec international?

Our own research and development department ensures this. Entec International is active from design to installation and from commissioning to planned maintenance. With our very wide product range from hyperboloid, dynamic and static mixers, impellers, flange pumps, aeration elements, turbo blowers and odour treatment systems.

What is Entec data mining?

The Entec data mining process drives parts numbering and taxonomy standards. Live management reports,technical clarification and logistics tracking tools,are linked to service users hand held devices providing visibility along the demand to supply chain.

Who are Entec people?

Entec people are industry leading specialists in Procurement, Global logistics, ERP Systems and Inventory optimisation. Close partnerships with Operations Research practitioners in industry and academia ensures Entec are innovators developing and implementing industrial MRO best practice.

What does Entec do?

Entec group businesses and staff,across Europe,Africa,Asia and the Americas,successfully manage the flow of business critical components,underwriting the production needs of some of the world's leading businesses operating along complex supply chains.
