Why is Petronas partnering with SEDc Energy Sdn Bhd?

Petronas, through its subsidiaries, and SEDC Energy Sdn Bhd -- a wholly-owned subsidiary of Sarawak Economic Development Corp -- are collaborating on the commercial production of green hydrogen and the exploration of its value supply chain in Asia to meet the demand for global cleaner energy solutions.

Who is Sarawak's first hydrogen refuelling station?

During his secondment to Sarawak Energy Bhd in 2018, he developed Southeast Asia's first hydrogen production and refuelling station, while simultaneously formulating the Hydrogen Economic Blueprint for the state.

Will Malaysia build a hydrogen refuelling station in Putrajaya?

He notes the Malaysian government's recent announcement on the construction of a mobile refuelling station in Putrajaya, marking hydrogen's first footing in Peninsular Malaysia.

Why should Malaysia invest in green hydrogen?

In Malaysia, these efforts are aligned with the government's active role in promoting green hydrogen to accelerate climate action and reduce greenhouse gas emissions through the development of policies and regulations to support the sector's growth and attract investments.

Does Sarawak have a PEM electrolyser?

This arrangement includes the supply and operation of the PEM electrolyser to Sarawak's Darul Hana and Batu Kawa refuelling stations. Sarawak had a head start due to its favourable energy mix, in which about 75% of the state's electricity is generated by hydropower, which is considered a form of renewable energy.

What is green hydrogen used for in Sarawak?

Green hydrogen is currently used in Sarawak mainly to decarbonise the transport sector. It is gaining more traction with its impending use to power an autonomous rapid transit (ART) fleet in Kuching that is expected to commence operations as early as 2025.
