

VIENTIANE (LAOS): As the host of the Asean Summit 2025, Malaysia is committed to ensuring that the Asean Power Grid (APG) strategic initiative can be finalised by next year for the benefit of the region.

A recent influx of data center investments in Malaysia, led by U.S. firms, could increase electricity demand by 11,000 megawatts (about 40 percent of Peninsular Malaysia's installed capacity). As these firms look to reduce their global carbon footprint, their data centers will need electricity generated from renewable energy (RE) sources.
