

Nordic Solar is expanding its presence in Lithuania, building its second solar park in the country. The solar park is situated in the region of Svencionys approx. 80 km north of the capital Vilnius and will have a production capacity of 80 MWp, corresponding to the annual electricity consumption of approx. 26,000 European households.

Lithuania established a goal of solar PV of 0.8 GWp (Gigawatt) in the NECPs in force, but in the meantime the government has set more ambitious goals for total Solar PV: 1 GWp by 2025 and 2 GWp by 2030.

Electrum's new 22-MW solar farm in Lithuania is now operational, showcasing cutting-edge renewable energy solutions while powering the future of sustainable innovation in the Baltics!

Unveiling Lithuania's largest solar park in Moletai, Nordic Solar's milestone investment marks a significant step towards the nation's renewable energy goals. With dignitaries present, including the Danish Ambassador and Lithuanian energy authorities, the ceremony highlights collaborative efforts and emphasizes biodiversity promotion.

Being built in the region of Svencionys, about 80 km (49.7 mi) north of the capital Vilnius, the company's second Lithuanian solar farm is expected to generate enough electricity to meet the annual demand of roughly 26,000 European homes. The plant will be equipped with bifacial PV modules mounted on Nordic Solar's proprietary steel construction.

The report dissects the Lithuania solar power Market into segments by end-use sector and by technology type (solar photovoltaic (PV) and Concentrated solar power). A detailed summary of the current scenario, recent developments, and market outlook will be provided for each segment.

Danish solar company Nordic Solar A/S today reported progress on its 100-MWp solar project in eastern Lithuania, announcing that construction works are advancing and the site is expected to be operational in the first half of 2024.

Danish solar energy company Nordic Solar is building its largest solar park to date, located in Moletai in eastern Lithuania about 60 km from Vilnius. The new solar park, which is currently under construction, is expected to start producing electricity in the first half of 2024.

List of Lithuanian solar panel installers - showing companies in Lithuania that undertake solar panel installation, including rooftop and standalone solar systems.

The official opening marks Nordic Solar's first major investment in Lithuania: a 100-MWp solar park in the
