The Zond-M solar monitoring spacecraft will help assess the condition of circumterrestrial space, he said. "The entire space weather that is condition of circumterrestrial space, depends on solar activity. About 90% of solar activity data we need for making a forecast comes from foreign sources," Petrukovich said.

Solar Group is an investment themed MLM company based out of Russia. Solar Group also goes by "Duyunov's Motors", referencing its founder Dmitry Duyunov. As far as I can tell Duyunov doesn't have a digital footprint prior to Solar Group surfacing in 2019. He appears to be a random Russian citizen leading the company.

Hevel is the largest solar energy company in Russia. The group was founded in 2009 and, according to its website, is the only vertically integrated manufacturer of solar modules in Russia. Hevel Group has implemented over one hundred projects in Russia with a total capacity of over 1 GW.
