

Senegal sun panels

Does Senegal have a solar power plant?

However, under the government-backed World Bank Scaling Solar program, 60 MW was added to Senegal's domestic power generation last year alone through solar. Last month, H.E. President Macky Sall inaugurated the 23 MW peak Diass solar power plant, supported by German Chancellor, H.E. Olaf Scholz.

Can Senegal develop 60 megawatts of solar power?

The government of Senegal has been working with the World Bank Group to develop 60 megawatts of solar power through Scaling Solar. According to World Bank data, over 70% of the population of Senegal currently has access to electricity.

When will Kael & Kahone solar plants be available in Senegal?

Meanwhile, the Kael and Kahone solar plants came online in May 2021, developed by Engie and Meridiam following competitive tendering by Senegal's Energy Regulatory Commission, financed by the International Finance Corporation, European Investment Bank, Proparco and Senegalese sovereign wealth fund, FONSI.

How much electricity does Senegal have?

As it stands, 70.4% of the Senegalese population has access to electricity, of which less than a third is generated from domestic sources - total installed capacity currently sits at 1,555 MW. However, under the government-backed World Bank Scaling Solar program, 60 MW was added to Senegal's domestic power generation last year alone through solar.

Will solar be Senegal's cheapest energy source?

The planned Scaling Solar projects underscore Senegal's commitment to integrating renewable energy resources into its energy mix. The successful tender set a new benchmark for the region. With prices under 4 US cents per kWh, solar energy will become Senegal's cheapest energy source. Questions or Interest? [Subscribe to our mailing list.](#)

Where are Kael and Kahone solar plants located?

The Kael and Kahone solar plants, the first financed and tendered under the Scaling Solar program in Senegal, became operational in May 2021. The PV plants, located in Western Senegal, are sponsored by Engie, Meridiam, and the Senegalese Sovereign Wealth Fund for Strategic Investments (FONSI).

The Emerging Africa Infrastructure Fund (EAIF), a Private Infrastructure Development Group (PIDG) company, has committed a EUR11.5m senior secured loan to develop the first project-financed solar PV plant and battery energy storage system (BESS) in West Africa, located in Bokhol in the north of Senegal. The Walo facility will be a 10MW/20MWh BESS supplied by...

High-capacity solar batteries store excess energy from your solar panels, ensuring that you always have power
