Why choose Seychelles solar energy?

Local Seychelles experience Mahe, Praslin, La Digue and outer islands Certified by Seychelles Energy Commission Approved by PUC Technical staff qualified in solar energy & energy efficiency Quality renewable energy products Warranty & Certification Best price Optimal performance Best return on investment Solar Energy PV Systems

Why did namene solar sell VERs?

The first sale of our VERs marks the beginning of the next phase in which we successfully leverage climate finance to scale up access of affordable solar light to millions of people across Sub-Saharan Africa as part of Namene Solar's extensive climate activities," Climate Director, Bernardo Lazo said.

What does the Seychelles government do?

The Seychelles Government is committed to providing adequate, reliable and affordable energy to meet future energy consumption needs and to underpin strong economic growth through consumable energy initiatives. The Seychelles enjoy favourable conditions for renewable energy (RE) resources, such as wind and solar.

Who is ESS Seychelles?

Contact Us ESS has been installing photovoltaic (PV) systems in Seychelles since 2012 and provides renewable energy products and energy efficiency consultancy. About Us FAQ About PV Products

What is the Seychelles energy plan?

It targets an ambitious transformation and diversification of the Seychelles' currently 85 MW diesel-dominated electricity generation capacity (on Mahé, Praslin and La Digue), aiming at replacing diesel generators with domestic and international public and private financing.

Namene solar lights are designed to help people and families thrive, wherever they live. We help customers replace harmful kerosene lamps, by providing safe, clean solar-powered lights for ...

Namene Solar deliver solar power without limit. Namene Solar wants to bring everyone, everywhere access to clean modern energy by connecting people to the sun to power their lives. As full service solar specialists it delivers end-to-end scalable solar systems that save money and combat climate change.

Seychelles namene solar

All products distributed by Namene are designed to help people and families thrive, wherever they live, by meeting their daily utility needs while eliminating sources of combustion. We design our products to last as long as possible, and build long-term relationships with each of our customers based on trust and mutual benefits.

Namene Solar works to scale affordable energy access in off-grid communities. Their innovative climate projects use climate finance to subsidise the cost of solar lights for customers in rural areas who cannot afford solar.

Developer of renewable energy technologies intended for solar PV market in West Africa. The company's core business is in project development and financing and brings to fruition turnkey investment programs, from site location to obtaining all the required permits and licenses, enabling above-average return on investment.
