

Sidus energy Micronesia

Sidus team is dedicated to continuous advancement of LEO battery technology and creative solutions of battery product engineering, process engineering and manufacturing engineering. Sidus Energy is laser focused to provide global customers with superior and diversified products.

Sidus Energy engages in the research, development, manufacture, and sales of high-performance lithium batteries. The company focuses on creating next-generation batteries based on revolutionary cobalt-free technology from IBM.

The Sidus Energy NEO battery technology offers up to 250Wh/kg energy density with 5C (12 minutes to full charge) charging capabilities, while maintaining the manufacturing costs of traditional LFP cells.

Sidus Energy is a technology company commercializing the revolutionary cobalt-free battery technology from IBM. The breakthrough technology uses novel proprietary materials that totally eliminate the use of any heavy metals.

SIDUS ENERGY UNVEILS XEO BATTERY TECHNOLOGY: ACHIEVING LEADING ENERGY DENSITY AND RAPID CHARGING SPEEDS. Sidus Energy, a leading battery technology innovator based in Silicon Valley, has unveiled its latest breakthrough: new Li-ion battery cells developed with revolutionary cobalt-free battery chemistry technology.

May 28, 2024 - MILIPITAS, CALIFORNIA - Sidus Energy, a leading battery technology innovator based in Silicon Valley, has unveiled its latest breakthrough: new Li-ion battery cells developed with revolutionary cobalt-free battery chemistry technology.

The Sidus Energy NEO battery technology offers up to 250Wh/kg energy density with 5C (12 minutes to full charge) charging capabilities, while maintaining the manufacturing costs of...
