At Solar Energy Caribbean, we specialize in providing Grid-tied and Off-Grid solar PV systems with battery storage, ensuring that homes and businesses in Sint Maarten never have to face such disruptions again.

Using a solar battery can help users to reduce the amount of electricity they would normally buy during peak hours. The battery can store the extra energy produced from solar panels during the day to avoid using electricity at a more expensive rate. The peak time-of-use (TOU) rates can be double the price compared to off-peak rates.
