

Solar power for office Trinidad and Tobago

What are the solar photovoltaic systems in Trinidad and Tobago?

In Trinidad and Tobago and the wider Caribbean there is an abundance of natural energy from the sun. In Trinidad and Tobago a typical day can be insolated for 5-6 hours of sunlight. This makes the Solar photovoltaic (PV) systems very applicable for Trinidad and Tobago. The cost for these systems are constantly coming down.

Is Trinidad ready for more solar power?

Every person involved in the process has certified solar installation training. Didn't know that was a thing in Trinidad, right? We're definitely ready for more solar power to make a better, more eco-friendly and sustainable world for us all. We understand that solar power is a bit more expensive than other power systems.
