

Solar roof price Pitcairn Islands

Can solar energy replace fossil fuels on Pitcairn Island?

Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy. The goal is to replace 95% of the current diesel consumption on Pitcairn Island (75,000 liters per year) with a combination of energy saving and solar electricity through the installation of a hybrid photovoltaic solar energy system.

Which roof tile has a solar panel?

The SOLAR FLAT-5XL ceramic tile, which has a solar panel on the large ceramic base of the roof tile, preserves the dimensions of the original ceramic tile and is still completely flat. The choice of materials for a roof is crucial to guarantee its durability, watertightness, energy efficiency and to protect the home.

Are the Pitcairn Islands Green?

Pitcairn Islands, a group of five islands with a total area of 47 km² and which constitute one of the most remote archipelagos in the world, turn to safer, greener energies that best meet the needs of the population. Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy.

How to install solar tiles on a ventilated roof?

SOLAR tiles, both the Flat-5XL and Flat-10 formats, must always be installed on ventilated roofs, using a double batten or equivalent system. The integration of the tiles into the roof is achieved by finishing the roof with ceramic tiles and their corresponding special pieces.

What is a solar roof?

A Solar roof is classified as a lightweight roof, which reduces the requirements for the subroof construction. It only weighs 14 kg. per m² and is therefore lighter than most conventional roof types, making it suitable for older roof constructions. Solar roof is Danish developed and produced in the EU.

How does a solar roof differ from a conventional roof?

A Solar roof differs significantly from conventional roof types. A Solar roof - unlike other types of conventional roofs such as tile, slate, felt, etc. - creates value from the moment it is installed, rather than losing value over the years until it needs to be replaced again.
