

Solar solutions in Tonga

Prime Minister of Tonga today announced the official launch of the 6-MW power purchase agreement (PPA) based Tongatapu Solar Farm located at Fualu, Tongatapu, which has supplied electricity to over 10,336 households since August this year.

Maama Mai Solar. Solar | Popua, Tongatapu. The Maama Mai solar facility was commissioned in July 2012 by his Majesty King Tupou VI at Tonga Power Limited's Power Station at Popua. The project was funded by the NZ Aid Programme at a total of \$7.9 million NZD. In Tongan, Maama Mai means "Let there be Light".

The system includes a 350kW solar plant and a 1003kW/1856kWh battery energy storage system, which will enable TPL to integrate renewable energy into its electricity grid and provide reliable power to customers.

Tonga Power Limited is continuously expanding its Renewable Energy Portfolio, through the introduction of solar generation and most recently Tonga's first ever large scaled wind generation system in Niutoua.

Solar power has emerged as a particularly viable renewable energy source in Tonga, thanks to its sun-soaked climate and mostly flat landscape. The Tongan government has taken initiative by endorsing solar power development and ...

Comprising three interconnected 2.3MWp ground mounted solar arrays in western Tongatapu, the construction phase successfully met the extreme challenges presented by the 2022 Hunga Tonga-Hunga Ha"apai ...

The new solar farm is expected to begin operations by April 2020. To achieve its goal of 50% renewable energy by 2020 and 70% by 2030, Tonga is also developing wind and biomass generation sources, and will integrate these with multiple units of battery energy storage.

SIT's goal is to use European knowledge and technology along with Swiss and New Zealand management skills to plan, organize and implement solar installations in Tonga. The aim being to provide self-sufficient energy systems which generate environmental and economic benefits for local families, institutions and companies.

The commissioning of the Niuatoputapu Solar Hybrid System & Mini Grid is a significant milestone for Tonga. It brings the country's total electricity accessibility to around 99%. The project will also help to reduce Tonga's reliance on imported fossil fuels, which will benefit the environment and the economy.
