

Faites le choix d'une installation de panneau solaire réussie à Mayotte avec JUA, expert de l'autonomie solaire et spécialiste de l'énergie solaire en site isolé. JUA vous propose des solutions sur mesure, grâce à du matériel sélectionné chez les meilleurs fabricants, et vous accompagne à chaque étape de votre projet, de la ...

À l'heure de la transition énergétique vers des énergies moins carbonées et plus « vertes », l'énergie solaire suscite un fort intérêt et plus particulièrement à Mayotte. Zoom sur cette énergie qui accompagne aujourd'hui la transition énergétique du territoire.

Mayotte is no doubt the French overseas territory facing the most challenging energy transition. It has the highest cost of electric power generation, at nearly EUR350/MWh in 2021, and the most carbon-intensive production, with fossil fuels accounting for over 95%. And consumption is rising sharply each year.

The Hamaha plant is a photovoltaic farm with storage located on the Indian Ocean island of Mayotte inaugurated in November 2023. The plant has been installed on the site of a former landfill to the northeast of the island that stopped receiving household waste in 2014 in order to begin its rehabilitation phase.

Mayotte is no doubt the French overseas territory facing the most challenging energy transition. It has the highest cost of electric power generation, at nearly ...

French renewable power producer and developer Akuo has officially opened a 1.2-MW solar park equipped with an integrated energy storage facility on the island of Mayotte in the Indian Ocean. The Hamaha photovoltaic (PV) plant will support the archipelago's goals of adding 60 MW of renewable energy capacity by 2028 to the 25 MW already ...

emissions from renewable power is calculated as renewable generation divided by fossil fuel generation multiplied by reported emissions from the power sector. This assumes that, if renewable power did not exist, fossil fuels would be used in its place to generate the same amount of power and using the same mix of fossil fuels. In countries and ...

In Mayotte, Albioma operates a photovoltaic fleet with an installed capacity of 15,3 MW. All power plants are sited in locations free from conflicts of use, including the one above Mamoudzou market, which features 725 KW of solar panels, making it the Group's most powerful rooftop plant.

Solar panels in social housing Installation of solar panels on social housing and temporary housing in Koungou. Workshops with inhabitants will allow best practices sharing to reduce energy consumption.

Solar system for home electricity Mayotte

Decarbonizing mobility Training of young people to maintain and repair e-bikes, in partnership with local associations; newly trained

French renewable power producer and developer Akuo has officially opened a 1.2-MW solar park equipped with an integrated energy storage facility on the island of Mayotte in the Indian Ocean. The Hamaha photovoltaic ...

Experience clean energy with Akuo Energy's 1.2MW Hamaha Solar Park in Mayotte, a French archipelago. Offsetting 1,100 tonnes of CO₂, the facility provides energy to 1,700 people and a 3.5MWh battery storage system for peak demand.

The 1.2 MW plant, constructed by Sagemcom, will supply sustainable electricity to 1,700 residents, supporting Mayotte's target of adding 60 MW by 2028. Featuring Lithium-ion batteries, the plant's storage mechanism stabilizes the grid by smoothing out solar production and injecting stored energy during peak demand, facilitating Mayotte's ...
