

With an average of 1,900 to 2,400 annual sunlight hours, Romania has significant natural potential for solar PV development. Yet, the country has not set ambitious targets for renewable energy sources, aiming for only 30.7% of its final energy consumption to come from RES by 2030. For solar, this translates into an objective of 5.05 GW, which

Romania will publish a call for its first solar and wind power auctions within weeks, pending the green light from the government and the Modernisation Fund, Minister of Energy Sebastian Burduja estimated. He announced the ceiling prices in the bids for CfD market premiums would be EUR 91 per MWh and EUR 93 per MWh, respectively.

The Romanian Ministry of Energy has set a maximum strike price of EUR91/MWh for solar projects and EUR93/MWh for wind projects in its first renewables auction under a CfD scheme.

Romania had a total solar installed capacity of 1.8 GW by the end of 2022, which expects the country's to add another 6.1 GW by 2026 in its business-as-usual scenario.

6 ???&#0183; Romania has selected 1,528 MW of onshore wind and solar photovoltaic (PV) projects in its first contract for difference (CfD) tender, at prices that were 20%-30% below the cap, the Romanian Photovoltaic Industry Association (RPIA) announced.

5 ???&#0183; The Romanian authorities have allocated 1.52 GW of renewable energy capacity in a procurement exercise, with the lowest bid for PV technology at EUR0.045 (\$0.047)/kWh.

5 ???&#0183; Polish IPP R.Power has been awarded 85MW of solar PV capacity in Romania's first CfD. Image: R.Power. ... The weighted average price of electricity production for solar PV was EUR51/MWh (US\$53.5 ...

7.12 Market Prices for Photovoltaic (Solar PV) Power Projects in Romania in Development, Ready to Build and Operational (Grid Connected) Condition 66 7.13 Key Cost Structure Elements of Photovoltaic (Solar PV) Power Plant in Romania 67

5 ???&#0183; Wind and solar power projects with a combined capacity over 1.5 GW in Romania are eligible for subsidies under a contract-for-difference (CfD) scheme. The first round of auctions resulted with ten and eleven winning bids, respectively. The weighted average of accepted wind power prices is EUR 65 per MWh, compared to EUR 51 per MWh for ...
