

Solstice energy Greece

What is solstice energy?

Welcome to Solstice Energy. Solstice Energy design, install and commission solar photovoltaic and systems for domestic, community and commercial buildings. Solar photovoltaic (PV) is the creation of electricity from light, while solar thermal is all about heating water.

Why should I choose Solstice for solar energy?

Solstice is committed to ensuring that your investment in solar energy is protected and your system is future proof. At Solstice, we believe that an investment in solar energy is a guarantee for the future.

Why should you choose solstice?

Solstice is committed to ensuring that your solar energy system is 'future proof' and your investment is protected. We provide operation and maintenance services that assure the highest uptime, allowing you to take full advantage of your system and harvest the maximum solar energy possible.
