

LONDON, England - Last December, the government of St Kitts and Nevis, the state-owned St Kitts Electric Company (SKELEC) and Leclanché announced that they broke ground on a landmark solar generation and storage project that will provide between 30-35 percent of St Kitts baseload energy needs for the next 20-25 years while reducing carbon ...

On successful completion of this fully integrated solar photovoltaic system and a lithium-ion battery energy storage system (BESS), the facility will supply Saint Kitts with 30% to 35% of consumers" annual electricity ...

St. Kitts was once known as the Gibraltar of the West Indies for its domination of 18th- century colonial battles. How the island rose to become the world"s leader in sugarcane cultivation, an inspiration for the industrial revolution in the process.

Basseterre, St. Kitts -- The Government of St. Kitts and Nevis and the St. Kitts Electricity Company Ltd (SKELEC) have terminated the Renegotiated Power Purchase Agreement (PPA) with SOLEC Power Ltd (SOLEC) for the construction of a Solar PV and Battery Energy Storage Project.

As the largest solar and storage facility in the Caribbean, this project will be one of the best examples for utilisation of solar resources in island locations. With the project"s completion, Leclanché will have enabled St. Kitts and Nevis to be in the global top tier of countries utilising renewable energy with over 30% penetration.

Let Solar Island Energy help your Saint Kitts and Nevis business save significantly on energy bills, have reliable, self-contained utilities, improve its long-term value, and be less dependent on fossil fuels. We provide a free consultation to assess how you can benefit from solar panel installation and renewable energy solutions. Contact us today.
