Why do we need solar panels in Montserrat?

The use of Solar Panels meets one of the Governments priority needs which is to improve energy security by slowly transitioning to renewable energy. The incorporation of Solar into the Grid on Montserrat, resulted in a 13% renewable energy input on the grid, which is 3% above the European Union's key performance indicator (KPI) of 10% .

Who provided the power data for the solar PV project in Montserrat?

The power data was kindly provided by the Government of Montserrat. Figure 16: Placard for the 250kW solar PV project in Montserrat. Renewable Energy planning in Montserrat

Why should Montserrat invest in re-sat projects?

The RE-SAT projects has provided the Government of Montserrat with a new renewable energy platform that has been used to support their transition to renewables and a climate resilient future. Montserrat has a vision of achieving 100% renewable energy grid penetration by 2030.

What is Montserrat energy policy 2016-2030?

(Montserrat Energy Policy 2016-2030). o In-country commitment is vital for the success of partnership projects: The lead partner in Montserrat, the Energy Unit at the Ministry for Communications, Work, Energy and Labour (MCWEL), facilitated the engagement with other organisations.

Who created the Energy Task Force in Montserrat?

An Energy Task Force was created in Montserrat, which included the Energy Unit of MCWEL, the Program Management Office in Montserrat, MUL and a Blue Economy consultant, that was charged with the creation of an alternative IRP.

Who is our partner in Montserrat?

Our lead partner in Montserrat is the Energy unit within the Ministry of Communications, Works, Energy and Labour (MCWEL).

According to Director of Montserrat Utilities Ltd. (MUL) David Thomson the plan is to create a solar park which can provide 250KW of power to the grid. Currently, Montserrat only needs 2.2 MW in its peak seasons.

With the Government of Montserrat's Solar PV farm now producing 1MW of power, could harnessing the sun be the way forward for a 100% renewable energy-powered nation? The EDF11-funded solar farm is split between a 750kWh plant in Lookout and a 250kWh system atop the government buildings in Shinlands.

With the Government of Montserrat's Solar PV farm now producing 1MW of power, could harnessing the sun be the way forward for a 100% renewable energy-powered nation? The EDF11-funded solar farm is ...
