similar companies as well as employees by title and much more.

I was looking into using and programming a Victron ESS system in the United States to feed back into the grid. I know it is possible to do on a technical level but what about the regulatory level? I noticed that the MultiPlus-II 48/3000/35-50 120V (UL 1741) PMP482305102 is UL Listed but does it have any grid codes?
