El Papa Francisco quiere que la Ciudad del Vaticano funcione con energía solar y para conseguirlo, se instalarán paneles solares en una propiedad vaticana, en las afueras de Roma. La...

Pope Francis has renewables on his mind as he says he wants Vatican City to run on solar power. To achieve his aim, solar panels will be installed on a Vatican-owned property outside Rome.

Pope Francis has announced plans for the Vatican City to go solar through his latest motu proprio, Fratello Sole, or Brother Sun. The pope has delegated Vatican governing bodies to work with the Italian government to build an agrivoltaics system in the lands of Santa Maria di Galeria, located outside of Rome and an extra-territory of Vatican City.

In a letter released on June 21 entitled "Brother Sun" Pope Francis announced his intention to transition Vatican City onto 100% renewable energy using solar panels.

Pope Francis has unveiled a plan to transition Vatican City to solar energy as its primary source of electricity in his latest motu proprio "Fratello Sole" or "Brother Sun." The Holy Father has directed the construction of an ...

This project will make the smallest country by land mass entirely energy independent, with all of its electricity needs met by solar power. Once completed, Vatican City will join Nepal, Paraguay, Ethiopia, Albania, Bhutan, Iceland and ...

Pope Francis has unveiled a plan to transition Vatican City to solar energy as its primary source of electricity in his latest motu proprio "Fratello Sole" or "Brother Sun." The Holy Father has directed the construction of an agrivoltaic system on Vatican-owned land in Santa Maria di Galeria, located just outside Rome.

This project will make the smallest country by land mass entirely energy independent, with all of its electricity needs met by solar power. Once completed, Vatican City will join Nepal, Paraguay, Ethiopia, Albania, Bhutan, Iceland and Congo as countries that generate more than 99.7% of their electricity from renewables.
