

Pope Francis has announced plans for the Vatican City to go solar through his latest motu proprio, *Fratello Sole*, or Brother Sun. The pope has delegated Vatican governing bodies to work with the Italian government to build an agrivoltaics system in the lands of Santa Maria di Galeria, located outside of Rome and an extra-territory of Vatican City.

2 ???· A new solar panel roof has been inaugurated at the Vatican to provide renewable energy to the museum. It's part of Pope Francis' plans to ensure the city state in Rome runs entirely on green energy. Italian energy supplier ACEA ...

One of the Vatican's most notable initiatives is the expansion of solar energy systems across key locations, including the entrance to the Vatican Museums and the Vignaccia area.

Vatican City may be the smallest sovereign state in the world, but it is also one of the greenest. It has long been an exemplar for tackling climate change through its approach to renewable energy. Thanks to a unique photovoltaic plant installed on the roof of the Vatican Audience Hall, the Papal State has been producing 300 MWh of solar energy ...

Pope Francis has unveiled plans for a solar plant that will let the Vatican City generate all its electricity from renewable sources. With an area of 121 acres or 0.44km² and a population of around 825, the Vatican City in Rome is the smallest independent state in the world by both area and population.

In a letter released on June 21 entitled "Brother Sun" Pope Francis announced his intention to transition Vatican City onto 100% renewable energy using solar panels.

5 ???· The photovoltaic installation and the charging stations will be inaugurated on Friday morning, 20 December, at 11:00 a.m. by Cardinal Fernando Vérguez Alzaga, President of the Governorate of Vatican City State, in the presence of Sr. Raffaella Petrini and Mr. Giuseppe Puglisi-Alibrandi, respectively, Secretary General, and Deputy Secretary General of the ...

2 ???· A new solar panel roof has been inaugurated at the Vatican to provide renewable energy to the museum. It's part of Pope Francis' plans to ensure the city state in Rome runs entirely on green energy. Italian energy supplier ACEA installed the photovoltaic roof in just six months in the Courtyard of the Corazze entrance.

From 20 December, official inauguration day - and in perfect timing to receive the thousands of faithful and visitors who will flock to the Eternal City for the opening of the Jubilee Year - the glass "roof" of the Vatican Museums' "Courtyard of the Corazze" entrance will unveil its new green and eco-friendly guise, thanks to the
