

Vestwoods lithium battery Saint Helena

Are vestwoods lithium batteries safe?

Prevent from overcharged and over discharged, over current or short-circuit. [Lithium battery warranty] As the brand with the longest warranty on Amazon for lithium iron phosphate batteries, VESTWOODS lithium batteries made from 100% safe and nontoxic automotive grade lithium iron phosphate cells.

What is the Vestwoods battery?

The Vestwoods battery is a lithium-ion battery developed by Vestwoods, which was the first to feature an intelligent Battery Management System (BMS). It is designed with a 20 year life span and includes cooling to ensure efficiency and high performance at a reasonable cost.

Who is vestwoods USA?

Who we are. Introducing Vestwoods USA, a high-tech enterprise with a rich portfolio of invention patents on lithium-ion systems. We specialize in BMS design, module manufacturing, power system integration, and exceptional customer service. Dedicated to providing effective, innovative, and customized lithium power solutions for our valued customers.

Why should you choose vestwoods USA?

VESTWOODS USA harnesses cutting-edge energy storage technology, utilizing the latest advancements in battery systems and control algorithms. Our solutions are designed to maximize energy efficiency, store surplus power, and intelligently distribute energy when needed, ensuring optimal performance. We understand that every energy need is unique.

The Vestwoods 5.12kWh 48V 100Ah Lithium Battery is a deep cycle lithium iron phosphate (LiFePO₄) battery designed for off-grid solar energy storage, backup power, and other applications. It has a nominal voltage of 48V and a capacity of 100Ah, which means it can deliver 4800 watts for one hour.

Battery Products. Our backup batteries are designed to prioritize reliability and high performance to ensure you can keep your communication systems running during power outages, preventing any potential downtime.

Vestwoods lithium battery Saint Helena

Intelligent lithium battery, integrated with self-designed BMS which can be widely used in various telecom and energy storage system such as indoor distribution stations,

The VE51100 W Battery: Stylish Solar Home Battery Backup. The VE51100 W Battery stands out in Europe as a highly efficient and aesthetically pleasing choice for solar home systems. Offering 5.12 kWh of energy storage, it's perfectly suited for households looking to enhance their solar energy utilization.

With easy installation, advanced safety features, including a dedicated battery fan, an intelligent Battery Management System (BMS), and a user-friendly display interface, homeowners gain unprecedented control over energy usage.

Experience high performance and reliable energy storage with Lithium-Ion Phosphate Battery technology, known for its long lifespan, fast charging capabilities, and improved safety features.

We pride ourselves on our deep commitment to transform the realm of green energy through innovative advancements in lithium battery technology, cloud services, and all facets of material science and IoT innovation.
