Who are Waxman energy?

Sought after in a variety of markets including technical textiles and industrial end uses, they are the first choice for all round premium quality and safety. Award-winning experts in renewable energy solutions, Waxman Energy Ltd. is one of the UK's largest distributors of PV modules, inverters, mounting systems and EV chargers.

What makes Waxman unique?

This philosophy is at the heart of Waxman and has led us from the distribution of flame retardant fibres, ceramic tiles and renewable energy technologies including battery storage and EV chargers.

Why should you choose Waxman energy?

At Waxman Energy, we believe in leading by example and take advantage of the same renewable technologies we supply. Our site is equipped with multiple Solar PV arrays which feed energy back to the grid and help to reduce our carbon footprint.

Who is Waxman solar?

Specialist in the field of solar mounting systems. We source the highest quality products from some of the world's leading brands. Part of the Waxman Group, which has over 75 years of experience in distribution. We are all about putting people first, and have a reputation for excellent customer service.

Who is Waxman international?

The Waxman team has a high level of technical expertise and knowledge of the diverse international flammability standards required to operate in the global textile markets of today. Formed in 1978, Waxman International is the exclusive European distributor of Kanecaron modacrylic fibres, manufactured by Kaneka Corporation.

How many companies does Waxman group have?

We have used the knowledge gained from distribution to diversify into other worldwide markets and products and the Waxman Group now consists of eight companies within three key divisions: Fibres, Ceramic Tiles and Renewable Energy.

Below are a few answers to our most frequently asked questions regarding online sales, payment and delivery when using Waxman Energy online.
